**USPTO refuses to give me an application number and to answer my letters  
Information Disclosure Statement and Priority-Document of my Patent-Application**

*Dear Commissioner of Patents and Trademarks,*

the USPTO refuses to give me an Application-Number for my per UPS-Express-Envelope sent Patent-Application from the 29.Oct.2000 and to answer my per facsimile sent Letter from the 24.Nov.2000 and to answer my per facsimile sent 2<sup>nd</sup> Letter from the 12.Jan. 2001.

When I call the USPTO by phone, nobody can find my inventor-name or the title of my invention or anything about my Patent-Application in your database.

I can evidence that my per UPS-Express-Envelope sent Patent-Application has reached the USPTO (see Annexes).

Further your facsimile machine has sent me an acknowledgement of error-free transmission after every per facsimile sent letter.

The Originals of the per facsimile sent Letters and its Annexes are appended here.

The Title of my Invention is:

*"Method for generating a simple kind of Artificial Consciousness in a computer, which has the capability to plan, generate automatically and execute machine-code for the solution of arbitrary programming-abandonments (Automatic Programming)"*

Additionally I append here the **Information Disclosure Statement** including the **certified copy of my foreign application**.

The english translation I've sent to you with my application on 31.Oct.2000 (these are the same 51 pages which I've send to the EPO/PCT 2 days later).

...

The USPTO-Address in Title 37 C.F.R. § 1.1 (a) caused trouble - see adhesive label on my Letter from the 13.Jan.2001 (last Page) and Annex A5 - therefore I send this UPS Express-Envelope this time to the USPTO Location-Address.

I request you herewith again to give me an application number for further correspondence and to answer my letters.

*With friendly greetings*

*Gerd Krämer*

**Annexes:**

- The Original of my per facsimile sent letter to General Information Services from the 12.Jan.2001 with its Annexes A1–A6:
  - A1: My letter from the 29.Oct.2000, which where the first 2 pages of my totally 100-pages Patent-Application.
